Cobra Scorpius Table Lamp

By Martinelli Luce

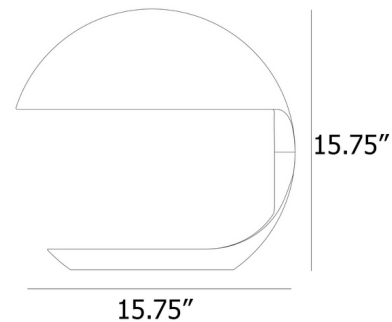

Description

The Cobra Scorpius Table Lamp is modern homage to Elio Martinelli's iconic mid-century design. Cobra boasts a sleek look composed of two resin molded bodies connected by a central joint for a 360 rotation of the shade. When the shade is rotated outward, its shape is reminiscent of a cobra ready to strike. This updated edition of the Cobra Table Lamp features holes in the shade in the pattern of the Scorpius constellation. When the lamp is turned on, light passes through these holes and creates a dazzling contrast against the Night Blue finish. On/off switch located on cord.
