Poppy Multi Light Pendant By Slamp

Description

The Poppy Multi Light Pendant features a grouping of delicate flower-shaped pendants that can be positioned freely to create customizable arrangements. The pendants are powered by a low voltage, silver-colored copper wire extending from the canopy to each pendant, which transforms a functional element of the fixture into a poetic decorative touch. The poppies are made of translucent Lentiflex with red-colored brass stems, and some flowers are randomly airbrushed in red to make each fixture truly one of a kind. TRIAC, Trailing Edge, 0-10V, or PWM dimmable.

Specifications
