Radiant Wired Remote Smart Switch with Netatmo

By Legrand Radiant

Description

The radiant Wired Remote Smart Switch with Netatmo is line voltage powered and communicates wirelessly back to a primary device that the switch controls. The remote switch must first be paired with a Smart Gateway with Netatmo (sold separately) and then configured in the Legrand Home + Control app with another already installed primary smart device. Screwless wall plate included. Smart Gateway hub is required and sold separately. Pairs with a Primary Smart Switch, Dimmer, Plug-in Outlet or Receptacle from the radiant with Netatmo line. Coordinate with other switches and outlets, sold separately. Compatible with other smart products through Amazon Alexa, Google Assistant and Apple HomeKit, as well as with home automation systems.
