Whirl Burst Chandelier

By Tom Dixon

Description

The Melt Burst Chandelier is a stunning fixture with a large scale perfect for occupying volume in a lobby, entryway or communal space. Twelve hypnotically spiraling polycarbonate shades produce a myriad of dazzling reflections as they branch outwards from a sputnik-like frame to form a cluster of light. ELV and Standard 120V dimmable. Note: Due to the weight of the fixture, additional ceiling support is required.

Shown in gold / gold whirl
