Braque Color-Select Picture Light

By Et2

Description

A bold reimagining of the classic picture light, the Braque Color-Select Picture Light pairs a faceted polygonal profile with refined technical performance. Supported at both ends, its geometric body is precision-machined and finished with matching endcaps for a tailored aesthetic. The integrated LED rotates to direct light with precision, while a dual-mounting backplate--paired with an optional 5 inch square cover plate--provides added versatility. Whether illuminating art, mirrors, or shelving, Braque balances architectural strength with sculptural restraint. Equipped with a five-way color temperature switch (2700K/3000K/3500K/4000K/5000K), this fixture allows you to easily customize the brightness to your desired setting, ensuring the perfect ambiance for any occasion.
