Pasha Picture Light

By Et2

Description

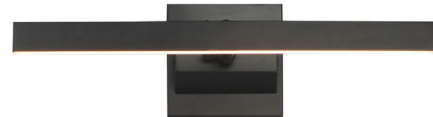

The Pasha Picture Light combines architectural lines with regal inspiration. Thin Trapezoid shades function as elevated task lighting or picture lighting. The arm from the back plate to the light source is extendable allowing you to position the strip of light housed in the metal shade closer or further in position while a pivoting gimbal at its joint allows you to rotate the light and direct its beam. Available in Gold and Black, these picture lights coordinate with many interior color schemes.

Specifications
