Moonscapes Multi-Light Pendant

By Et2

Description

A triumph of scale, ingenuity, and light, the Moonscapes Multi-Light Pendant transforms astronomical inspiration into an ethereal work of art. Each organically shaped plate evokes the cratered terrain of the lunar surface with rich texture and depth. Edge-lit LEDs are seamlessly embedded within a metal band, filtering soft light across the surface with astonishing clarity. The result is an illuminated landscape that appears to float in midair, creating a poetic focal point.
