A-Tube Nano Swing Ceiling Light

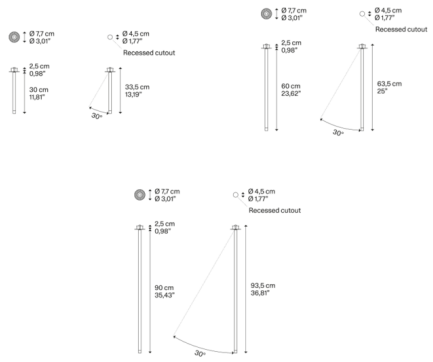

By LODES

Description

The A-Tube Nano Swing Ceiling Light features an ultra-slim silhouette that can define its surrounding atmosphere with an elegant, minimalistic touch. The sleek tubular fixture is capped with an acrylic diffuser with LED light source at its tip, creating the illusion of point of light floating in air. A-Tube Nano Swing possesses a recessed ceiling canopy in Matte Black or White, which allows the fixture to be angled up to 30 degrees to emphasize specific details or create a scenic composition of multiple fixtures.Note: Requires remote driver, sold separately. A single driver can power up to six A-Tube Nano Swing lights. While the lamp is straightforward and functional when installed individually, it can also create a dazzling display when grouped together at varying heights.

Shown in matte black / matte champagne
