The Cloud Pendant

By LZF

Description

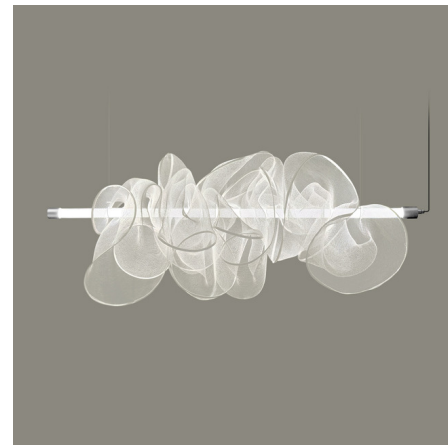

The Cloud Pendant is a tribute to the ever-shifting nature of clouds - appearing, transforming, and dissolving with grace. Evoking a sense of fantasy, it reflects the artistry and precision which handcrafts each form using delicate, translucent fabrics. Like real clouds, no two pieces are alike; each one is individually shaped, seemingly at random, embracing the beauty of imperfection. This is Cort's signature - each piece feels alive, effortlessly changeable, and in constant dialogue with its surroundings. With nothing more than a veil, the cloud captures what nature shapes with time, wind, and water. The transparent acrylic diffuser allows 360 degrees of light with the water resistant mesh diffuses the warm glow. Includes one 98 inch Black coaxial electrical cable.
