Plusminus Semisphere Multi-Light Pendant By Vibia

Description

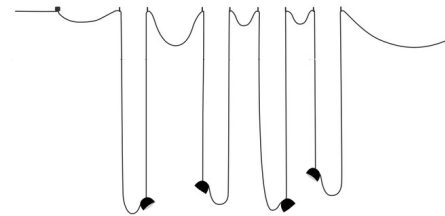

The Plusminus Semisphere Multi-Light Pendant is a versatile modular lighting system centered around the use of a textile belt that supports an array of pendants and also serves as the electrical conduit to power them. The domed pendant lights can be freely positioned along the length of the belt, allowing for the creation of bespoke configurations perfectly suited to the space. Plusminus can be customized with a wide variety of color, finish, mounting, and dimming options. As shown, this configuration includes 4 semisphere pendants, a surface mounted canopy with non-dimmable remote driver, and a black textile belt. Pricing may vary based on custom options selected.
