Plusminus Linear Multi-Light Pendant By Vibia

Description

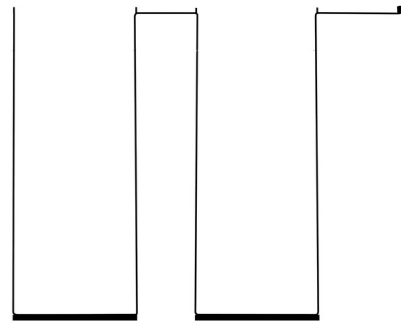

The Plusminus Linear Multi-Light Pendant is a versatile modular lighting system centered around the use of a textile belt that supports an array of pendants and also serves as the electrical conduit to power them. The linear, low-glare pendant lights can be freely positioned along the length of the belt, allowing for the creation of bespoke configurations perfectly suited to the space. Plusminus can be customized with a wide variety of finish, color, mounting, and dimming options. As shown, this configuration includes 2 linear pendants, a surface canopy with a 0-10V dimmable remote driver, and a black textile belt. Pricing may vary based on custom options selected.
