Manhattan Color-Select Wall Light

By Oxygen by Quorum

Description

The Manhattan Color-Select Wall Light features an elegant glass form that mimics a flowing droplet. Stretched glass rods form the lighted arms, filled with delicate interior bubbles that catch and refract the light. A brushed brass backplate elevates Manhattan's sophisticated appeal. LED color selectable options include 2700K, 3000K, 4000K, 5000K, and 6500K. Sconce can be installed vertically or horizontally.

Shown in brushed brass / clear
