Gaia Pendant

By Tala

Description

The Gaia Pendant features a minimalist aesthetic with a socket in wood or metal paired with the globe-shaped Gaia Bulb by Tala. The included bulb recalls the look of vintage bulbs with its exposed filaments and iron-tinted glass, but it offers the long lifetime, energy efficiency, and high-quality illumination of LED technology. Place the Gaia Pendant above a kitchen island or in the center of a living room or hallway to enhance any room with a retro-inspired accent.

Shown in walnut / clear tinted
