Telluride Wall Sconce

By Corbett Lighting

DAMP

Description

Reminiscent of an elevated jewelry clasp, the Telluride Wall Sconce creates architectural interest through the layering of specialty metal and glass. A panel of watery topaz piastre glass overlays a ribbed clear piastre panel, resulting in a compelling mix of texture and color. A cast metal holder in a Vintage Brass finish anchors the piece with a sense of modernist, graphic style.

Shown in vintage brass / topaz

Specifications
