## Geo V Wall Sconce By Corbett Lighting

## Description

The Geo V Wall Sconce is defined by its quiet strength and sculptural clarity. Glowing panels of honey onyx are book matched to reveal mirrored veining—an artisanal detail more often seen in luxury surfaces than lighting. The symmetry of the stone takes center stage, framed by clean, minimal metalwork in Vintage Brass that amplifies its natural elegance. Geo offers a soft, grounded glow that feels both bold and restrained. Its graphic silhouette and elemental beauty lend structure and visual rhythm to interiors.Note: Due to the one-of-a-kind nature of the medium, exact colors and patterns may vary slightly from the image shown.

Shown in vintage brass / honey onyx
