## Unearthed Table Lamp

By Troy Lighting

### Description

The Unearthed Table Lamp channels the character of antique pottery with its textured, gesso-like finish and weathered form. Painterly ridges and hand-chipped details give the ceramic base the feel of a timeworn artifact. A white linen shade and subtle Patina Brass accents complete the look, bringing a grounded sense of history and artistry to any space. On/off switch located on socket. Note: Due to the one-of-a-kind nature of the medium, exact colors and patterns may vary slightly from the image shown.

Shown in white / black / white linen
