Bains Corner Ceiling Light

By Hudson Valley Lighting

DAMP

Description

The Bains Corner Ceiling Light uses specialty stone to create the perfect petite overhead light. The natural veining of the alabaster hemisphere is defined by subtle color variations that make every piece one-of-a-kind. A slender metal ring finished in Aged Brass trims the fixture, adding a luxurious contrast of materials. The convex dish shape of Bains Corner is designed to cover a standard junction box, making installation a breeze. Note: Due to the one-of-a-kind nature of the medium, exact colors and patterns may vary slightly from the image shown.

Shown in aged brass / alabaster
