PH 80 Portable Table Lamp

By Louis Poulsen

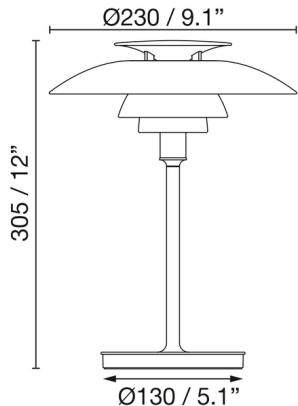

Description

The PH 80 Portable Lamp brings a clean decorative look to your interior space. Based on the principle of a reflective three-shade system, PH 80 directs the majority of the light downward while minimizing unpleasant glare. The PH 80 Portable Lamp is a modernized version of the PH 80 lamp, originally released in 1974 as a tribute to designer Poul Henningsen, that has been outfitted with a rechargeable battery and built-in LED light source. A dimmer button on the lamp's base allows for stepless dimming or 4-Step dimming (100% / 45% / 20% / 5%), and the lamp's color temperature warms from 2700K to 1800K as it is dimmed. Includes USB-C charging cable (wall plug adapter is not included).

Shown in chrome / red / opal white

Specifications

COLOR	Red / Opal White
BODY FINISH	Chrome
