LiteStream M Wireless Low Voltage Magnetic Transformer

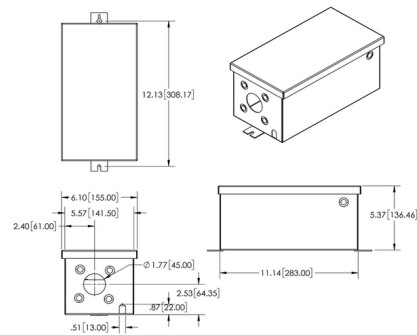

By Light To Form

Description

The LiteStream M Wireless Low Voltage Magnetic Transformer brings IoT and home automation to your backyard. Create and control ambiance from your smartphone, with WiFi or Bluetooth multi-cone control that works with any new or existing low voltage landscape lighting. Connect via compatible apps: including LTF's LiteStream app, Tuya, Smart Home and others. Users can also configure Google Assistant and Alexa for hands free voice operation. Up to four lighting zones can be controlled independently, or as one. Dimming individual zones is also a feature. Programmable options include scheduled on/off, dimming, and group zones. LiteStream M is compatible with halogen bulbs, AC/DC LED bulbs and LED tapes. Note: Unit must be mounted at least 1 foot above ground level.

Shown in stainless steel
