Verge Ceiling RGB/RGBW Drywall Plaster-In LED System 24V

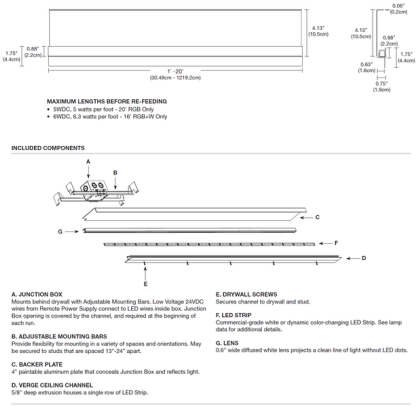

By PureEdge Lighting

Description

Verge Ceiling RGB/RGBW is another innovative design from the family of 24VDC plaster-in systems. Verge Ceiling recesses within 5/8 inch or thicker drywall and mounts directly to studs and joists without modification. The slim plaster-in aluminum channel has a 4 inch paintable backer plate creating visually interesting and dramatic illumination by highlighting the inside corners of two drywall surfaces such as ceiling, coves, and skylights. Verge Ceiling is available in 1 foot increments (sold in 5 foot increments) in RGB (Red-Green-Blue) in 5 watts per foot up to 20 feet, and RGBW (Red-Green-Blue+2000K White) is available in 6 watts per foot up to 16 feet. May be field cut to any length. A remote DMX power supply, controller, and optional accessories are sold separately.Included Components: Junction Box, Adjustable Mounting Bars, Backer Plate, Verge Ceiling Channel(s), Drywall Screws, LED Strip, and Lens(es)
