Sepal Pendant

By ZANEEN design

Description

Sepal is a suspension luminaire created with twelve ash wood slats overlapping to resemble a sepal structure. The slats are fixed to the central axis using finishing screws with exposed heads. Light is dissipated evenly thanks to an injected polycarbonate shade which protects the LED. Its natural finish transmits harmony to a space, making it a key piece in warm, relaxed and inviting settings.

Shown in ash wood / opal

Specifications

COLOR	Opal
