Astros Multi-Light Pendant

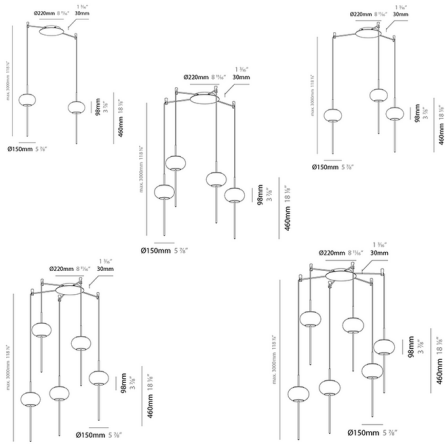

By ZANEEN design

Description

Astros is a lighting system that brings harmony to environments and allows you to create different configurations. It has the same effect as when we look at the constellations in the sky - the forms that the systems create can transport us to a moment of contemplation and serenity. Astros is a system with infinite variants that offers a solution to common situations in lighting design - stairwells, halls and large spaces, or restaurants that are seeking intimate lighting. The Astros collection is a great option for projects seeking consistency and unity throughout the space.

Shown in matte black / opal
