Lap Ceiling Light

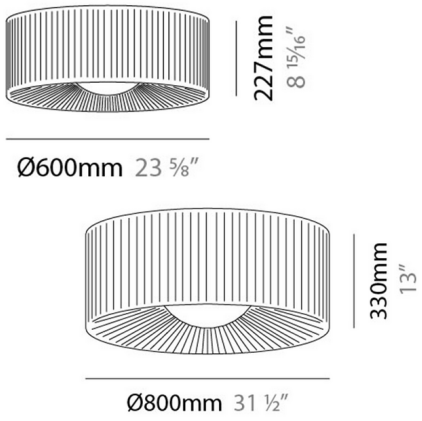

By ZANEEN design

Description

Lap is a collection of suspension and surface ceiling lights that incorporate overlapping ribbons that encircle the globe of light and embracing it. The texture generated by the intersections of each of the interspersed veins of fabric generates as subtle play of transparency and light. The manual wrapping and the blown glass elements endow it with character and humanity. Magnets in the structure make it easy to remove and fit the shade in both mounting applications.

Shown in matte white / ecru
