# Geyser Table Lamp

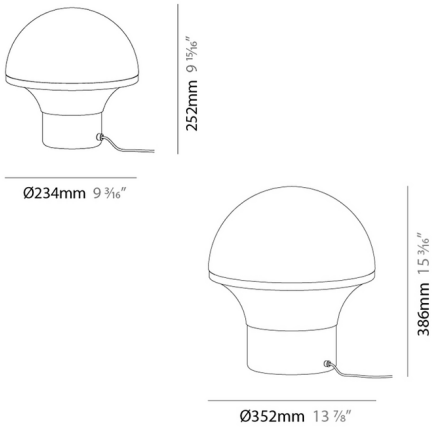

By ZANEEN design

## Description

Geyser is an irregular round fixture with an omnidirectional light distribution. It's shape is inspired by nature's mysterious yet beautiful volcanos, transporting us directly into the natural world. Its selection of light intensities are regulated using a touch system that is integrated in the lacquered steel base, while the opal satin glass illuminates to exude warmth within the space. 5-step touch dimming

Shown in matte black / satin opal
