Sculpt Stool

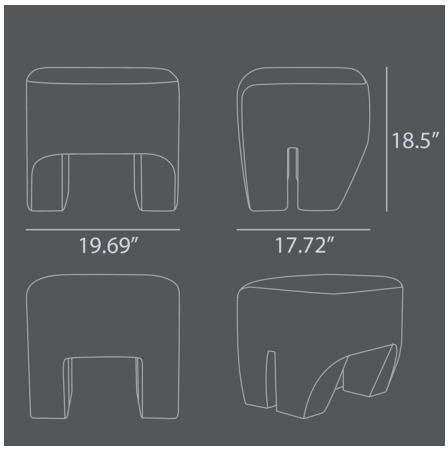

By 101 Copenhagen

Description

Sculpt Stool is inspired by the Brutalist architecture movement that emerged in the 1950s. True to the concrete building components and simplified block-like structures, the stool comes in a fiber concrete version cast in lightweight fiber concrete and hand-painted. The fiber concrete version highlights the stool's architectural inspiration with its unique, hand-painted texture. Sculpt Stool is also available in a in luxurious off white Boucl. The Boucl fabric adds a cozy, inviting touch with its soft and tactile surface, perfectly complementing the robust design with a hint of modern elegance.
