## Pillar Table

By 101 Copenhagen

### Description

Inspired by the rich lustrous use of material in the 1930s Art Deco movement, the Pillar Table is a piece of statement furniture characterized by the contrast between a paper-thin tabletop and voluminous base. The Pillar coffee table comes in a tall and a low version, made of plated metal in two colors brass and burned black - ensuring a sophisticated appearance that will be a unique addition to any home. The curved exterior makes this table great for classic and contemporary interiors alike.
