Podium Sculptural Pedestal

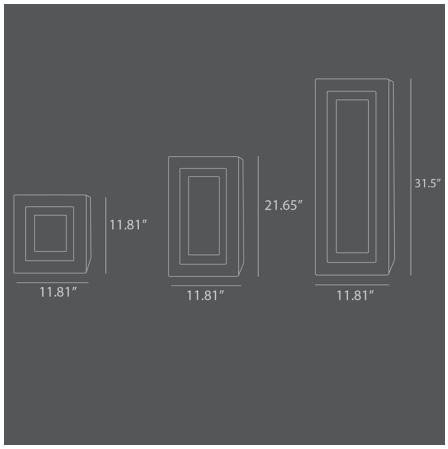

By 101 Copenhagen

Description

Podium is a means to get the gallery feeling and exhibit your favorite object or piece of art at home. Inspired by architectural faade details, each podium has a carved relief on two opposing sides, creating a beautiful play of shadows changing throughout the day, depending on the direction of light. The podium can be placed both horizontally and vertically, facing a wall or standing freely in a room as it has no backside. Available in three different heights, the podium is just as suitable for use as a side or coffee table.
