Crown Table

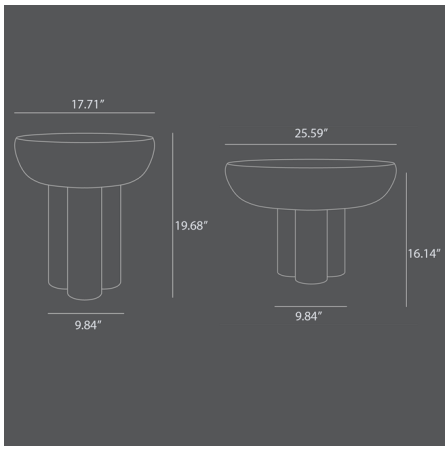

By 101 Copenhagen

Description

The collection of Crown Tables are cast in one piece formed as a circular table top carried by four cylinder shaped legs. Standing strong and proud, the table is inspired by the bare, structural elements of Brutalist architecture, celebrating the columns, and eluding an attitude towards too many details. The chunky fiber concrete legs enable a large gap between the table edge and legs to emphasize the experience of a massive floating table top. The table is available in two sizes and can be used as a single standing side table or stand together as a pair of coffee tables.
