Alphabet of Light Mini Wall Light By Artemide

Description

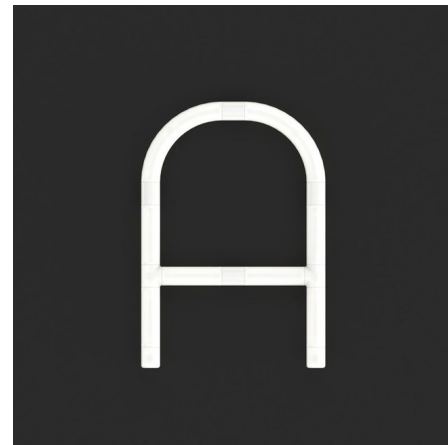

Light can often be used to communicate, whether it is setting the perfect ambiance to convey a mood or highlighting a particular feature of an interior as if to say 'Look over here!'. The Alphabet of Light Mini Wall Light interprets this concept in a more literal sense with a full alphabet of illuminated letters. Each letter is made of a white acrylic diffuser shaped to create a stylish, modern font. At approximately 14 inches tall and just 1 inch in cross section, the Alphabet of Light can be used to create a wide variety of messages. Note: This wall light does not mount to a standard US junction box. It must be connected to a Class 2 remote power supply (sold separately) installed in an accessible location. The light must be installed into drywall with 15/64 inch (6cm) of clearance behind.

Specifications

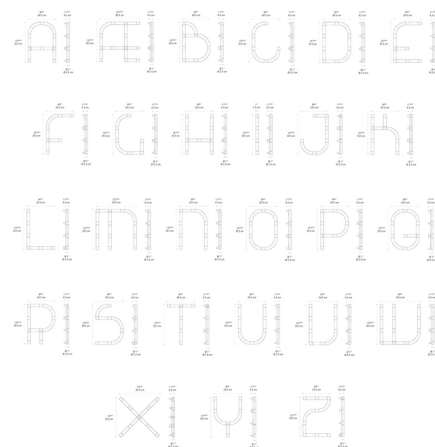

COLOR N/A
BODY FINISH White
