Entwine Stone Top Dining Table

By Copeland Furniture

Description

Make a statement in your dining room with The Entwine Stone Top Dining Table. This dynamic piece features a round sintered stone tabletop upon a wooden base with intersecting, curved legs. The base is treated with multiple coats of silky smooth varnish and sanded by hand to provide lasting protection that is resistant to stains, moisture rings, heat damage and abrasions. Manufactured through a high-tech process subjecting natural minerals to extreme heat and pressure, sintered stone achieves a level of strength and resilience that other surface materials struggle to match. The table top is impact resistant, non-porous, heat resistant, and environmentally friendly.

Shown in natural cherry / sahara noir
