Vetrina Semi Flush Ceiling Light

By Golden Lighting

Description

Drawing from the intricate elegance of early Elizabethan collars, Vetrina features a wave-like clear acrylic layer that gracefully wraps around its central metal structure, echoing the organic growth of flower petals. The interplay of delicate glass and sturdy metal creates a breathtaking sense of depth and movement, making this piece a true masterpiece of design. The ruffled acrylic is illuminated by an energy-efficient LED disc, offering bright, even light that enhances the fixture's dynamic form. With its smooth, gradual dimming through a triac system, Vetrina allows you to effortlessly adjust the ambiance to suit your mood.

Shown in light gold / clear
