## Giogali Pendant

By Vistosi

## Description

Originally conceived in 1967 by Angelo Mangiarotti, the Giogali Pendant derives both its name and shape from the Italian word giongher, referring to the rope used to tie a horse or oxdriven cart to the yoke. The pendant is composed of a multitude of small, rope-like crystal hooks, which are linked together to form a net of glistening glass. The crystal is draped around the light's frame, obscuring the light source and creating a gleaming cascade of light. With its delicate and glamorous aesthetic, Giogali will enhance any interior with an elegant sparkle. Note: Due to the weight of the fixture, the 25 and 33 inch pendants require additional ceiling support. The 14.5 inch pendant is only available with Black, White, or Transparent shade color and Chrome finish.
