Giogali Rectangular Pendant

By Vistosi

Description

Originally conceived in 1967 by Angelo Mangiarotti, the Giogali Rectangular Pendant derives both its name and shape from the Italian word giongher, referring to the rope used to tie a horse or ox-driven cart to the yoke. The pendant is composed of a multitude of small, rope-like crystal hooks, which are linked together to form a net of glistening glass. The crystal is draped around the fixture in a rectangular structure, obscuring the light source and creating a gleaming cascade of light. With its delicate and glamorous aesthetic, Giogali will enhance any interior with an elegant sparkle.

Shown in chrome / transparent
