Union Pendant By SkLO

Description

The Union Pendant combines upward and downward-facing glass domes in a variety of proportions, color palettes, transparencies, and textures for an elegant and sophisticated look. The lower glass portion is made of glossy opaque glass and illuminated from within to produce an ethereal glow. The upper glass dome is made of frosted glass, and the two pieces are separated by a brass band. The larger size also features a transparent dome surrounding the lower portion of the pendant, adding another layer of color and form to the design.
