Kerflights Drum Felt Pendant By Graypants

Description

The Kerflight Drum Felt Pendant takes its name from the word kerf, meaning a small slit or notch, in reference to the narrow openings running along the length of its cylindrical shade. Light is primarily directed downward through the acrylic diffuser, while the kerfs cast intriguing patterns of light and shadow onto the walls. The drum shade is made of PET felt, which aids in diffusing and dispersing ambient noise.

Shown in black / armor felt

Specifications
