Ms. Bowjangles Floor Lamp

By Ingo Maurer

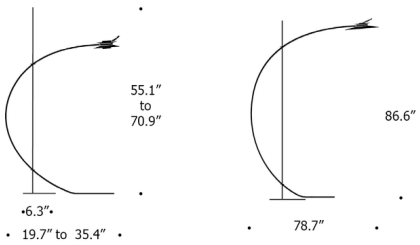

CE

Description

The Ms. Bowjangles Floor Lamp is characterized by its arching stem made of a flexible steel spring covered in fabric which winds its way up a steel support rod and around the lampshade. Ms. Bowjangles' asymmetrical silhouette features clearly defined curves and lines that draw the eye towards its unique design. The lampshade can be easily rotated to aim its light and raised and lowered along the stem. The larger version includes both an uplight and downlight in the shade to provide ambient lighting as well as focused task lighting. The dimmer switch is located at the tip of the flexible cable in the small version, or as a foot dimmer switch in the larger version.

Shown in black / olive
