# Jasna Kuchnia Wall Sconce

By Ingo Maurer

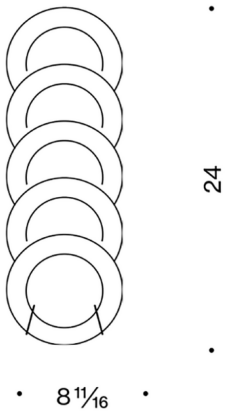

CE

## Description

The Jasna Kuchnia Wall Sconce transforms an everyday plate holder into a fascinating light fixture. The white porcelain plates are illuminated from behind by an LED strip, creating a dynamic interplay of light and shadow as light is reflected off the plates. The plates can be moved slightly from side to side to create an asymmetrical look if desired. A playful detail of a matchstick on the bottom plate appears to ignite when the fixture is switched on.
