Newton Outdoor Wall Light

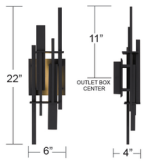

By Quoizel

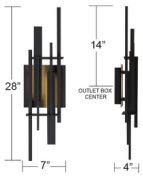

Description

Bold and poetic, the Newton Outdoor Wall Light is more than illumination - it's an artistic statement. Layers of slender, earth black bars rise and intersect like a modern skyline, creating a dynamic play of form and silhouette. Hidden within, a soft glow radiates against the golden interior, casting an inviting warmth that feels both contemporary and timeless. Perfect for entryways, patios, or pathways, Newton transforms your exterior into a gallery of light - where architecture meets romance under the evening sky. Can be mounted up or down.

Shown in earth black
