Porter Color-Select Island Light

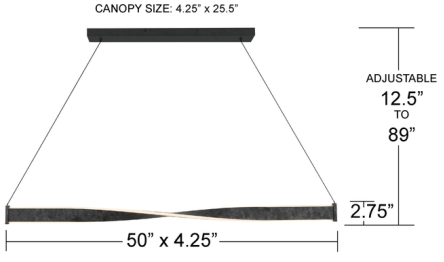

By Quoizel

Description

Minimalist in form yet rich in feeling, the Porter Island Light is a study in quiet elegance. A single ribbon of metal, gracefully twisted at its center, evokes the gentle rhythm of a slow dance or the subtle movement of wind-blown silk. Features a color-select switch which allows user to select between 2700K, 3000K, 3500K, 4000K, and 5000K color temperature options. Finished in a moody old black, Porter exudes an understated allure, its integrated LED light casting a soft, continuous glow that feels both modern and timeless. Ideal over dining tables or kitchen islands, Porter brings a sense of calm sophistication to any setting.

Shown in old black

NOTE: ALL DIMENSIONS ARE ROUNDED UP TO THE NEAREST 1/4"
