Bib Luz Table Lamp

By Santa & Cole

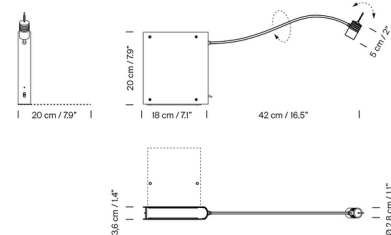

Description

Designer Oscar Tusquets originally conceived the idea of the Bib Luz Table Lamp in 1986, when he sought to illuminate his own library shelves. Tusquets decided to shape his lamp as a book, allowing it to integrate into any shelf discreetly. A flexible, rotating arm with an LED lamp head extends from the lamp's book-shaped base to provide light precisely where it is needed. Includes an optional metal base plate for added stability and an interconnection cable that allows multiple units to be linked and powered from a single outlet. On/off switch located on lamp's base.
