Heath Table Lamp

By Tala

Description

The Heath Table Lamp takes inspiration from the architecture surrounding Tala's London studio, namely the tall chimneys of Victorian-era buildings. The ceramic base features exaggerated curves and a high-gloss glaze that gently reflects light from Heath's built-in LED light source. A cotton shade, which takes its shape from English wildflowers, gently diffuses light and provides a delicate contrast to the solidity of the ceramic base.

Shown in port red / natural cotton
