Sling Modular Pendant

By kdIn

Description

The Sling Modular Pendant is part of a modular lighting system based around a unipolar cable that supports and provides power to multiple light sources, allowing for endlessly customizable configurations. The cable branches out from each pendant in a V-shape, which can be used to create unique arrangements with the cables tracing lines and shapes through the air. Each pendant can be installed to direct light upwards or downwards for added flexibility. Whether creating a minimalist linear suspension or making a grand statement with a complex structure, Sling can blend into a wide variety of interiors. **Note:** The Sling Modular Pendant system requires the Sling Canopy Driver Kit, sold separately. One canopy can power from 2 to 9 pendants. The maximum possible length of the cable run depends on the number of pendants used, with fewer pendants allowing for longer runs. Each pendant includes a cable holder that can be installed into the ceiling.

Specifications

COLOR N/A
BODY FINISH Black
WATTAGE 5W
DIMMER 0-10V
DIMENSIONS 2.4"W x 2.6"H
INTEGRATED LED MODULE 1 x LED/5W/120V LED

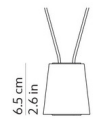

Technical Information

COLOR RENDERING 90 CRI
LAMP COLOR 3000K
LUMENS/WATT 104.00
LUMINOUS FLUX 520 lumens

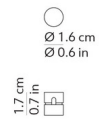

Shown in black

Lamp

Ø 6 cm
Ø 2.4 in

Cable holder

1.7 cm
0.7 in
