Lauro Plug-In Wall Sconce

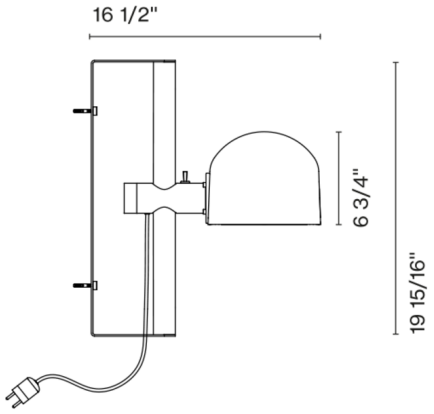

By Marset

Description

Designed by P. Aragay and J. Prez Mateo and originally released in 1973, the Lauro Plug-In Wall sconce is a testament to the idea that good design is timeless. Lauro is composed of a methacrylate dome shade and sleek steel frame, two classic materials that recall the design language of the past. However, Lauro's streamlined silhouette and function adjustability allow it to effortlessly blend into both modern and retro interiors alike. The shade can be raised and lowered along the frame, as well as rotated side to side to aim its light precisely where it is needed. On/off toggle switch located on lampshade.

Shown in dark brown / black
