Rae Chandelier

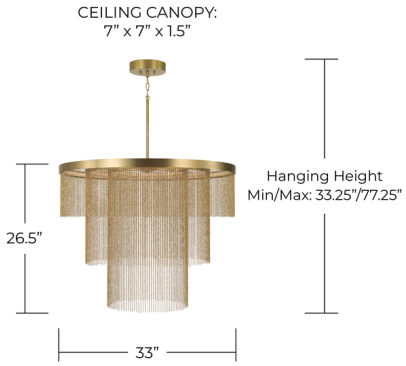

By Capital Lighting

Description

The Rae Chandelier makes a statement from every perspective, blending timeless elegance with a refined, contemporary edge. Suspended from a structured frame, its layered form is highlighted by cascading strands that create depth and movement throughout the design. Integrated LED lighting is subtly incorporated within the circular structure, casting a soft, even glow that enhances the fixture's intricate detailing. The result is a striking centerpiece that balances decorative artistry with modern performance.

Shown in aged brass
