Sidney Wall Sconce

By Capital Lighting

DAMP

Description

The Sidney Sconce brings a refined, sculptural presence to the wall. A gently curved panel is set slightly off the surface, creating depth and a subtle sense of movement. A contrasting metal band wraps the center, adding structure and visual balance to the design. Integrated LED lighting softly illuminates the material, casting an even glow that enhances its natural texture while providing a clean wall-washing effect.

Shown in matte brass / white marble

Specifications
