Lamont Picture Light

By Visual Comfort Studio

Description

The Lamont Picture Light by Chapman & Myers brings sleek minimalism. Defined by the collection's ultra-slim shade and integrated LED technology, it offers clean, focused illumination that enhances without overpowering. Mounted to an elegant S-shaped arm and finished with ball finial end caps, the picture light is ideal for hallways, studies, or gallery walls where its refined proportions and architectural clarity highlight artwork or shelving with quiet sophistication. As part of Chapman & Myers' slimmest picture light collection, it's designed to complement its surroundings while keeping the focus on what matters most. NOTE: Lamont requires a 2x4 inch junction box for installation.
