## 2-IN-1 48VDC Static White Power Driver / ELV Dimmer By PureEdge Lighting

### Description

The Power Dim 2-in-1 is a Static White dimmer with an integrated LED driver that converts 120VAC to low voltage 48VDC (up to 96W). Designed for installation in a standard single-gang electrical box, it eliminates the need for separate remote drivers, reducing clutter and simplifying installation. PureEdge Lighting's Power Driver combines an ELV dimmer and driver in a single, wall mounted unit. Kit includes driver/dimmer, faceplate, and mounting hardware. The integrated design delivers smooth, flicker-free dimming and avoids driver/switch compatibility issues. Features soft start and built-in short-circuit, overload, and thermal protection. Indoor use only.

Shown in white
