Naboo 1 Wall Sconce

By CVL Luminaires

Description

The Naboo Wall Sconce offers a clean-lined geometric aesthetic that will provide diffused lighting perfect for bedrooms and relaxation areas. The circular shade is available as either a metal reflector, which directs light back towards the wall for a soft indirect effect, or as an opal polycarbonate diffuser to gently direct light in all directions. Naboo also offers the option of a surface mounted canopy that can be mounted to a standard junction box, or a recessed canopy that can be installed within the drywall for a smooth, flush appearance. On/off switch is located on the backplate.

Specifications
