Assemble Outdoor Side Table

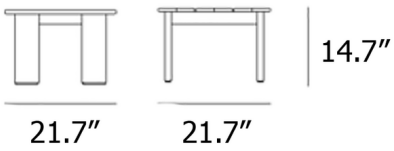

By Muuto

Description

The Assemble Outdoor Side Table will add a warm, tactile accent to any outdoor space with its FSC-certified teak wood construction. The broad wooden planks with softened edges beautifully showcase the wood grain's natural texture. A subtle seam between the boards allows the wood to breathe and shift naturally as the seasons change. Note: While the table is unfinished and unsealed, teak is durable hardwood suitable for outdoor use. As the table is exposed to sunlight and the elements, the wood will naturally take on a silver-grey patina. Clear tabletop oil (not included) can be applied periodically to maintain a warmer, deeper tone. Direct sunlight may cause temporary color variations in the wood if objects are left on the table for an extended period. These variations will even out over time once the object is removed.
