Inviso Wall Sconce

By Cerno

Description

Unpredictable beauty. Light and glass work together to create unimaginable results. When the glass cools, a unique, almost fingerprint-like pattern is revealed, producing a mesmerizing sunburst effect on the wall when the light is on. The Inviso sconce from Cerno uses a palette of familiar wood, metal, and glass with a form that blurs the lines between art and utility.

Shown in walnut / brushed brass / brushed brass

Specifications
